PROFILE

PHP & Laravel developer who turns ideas into real, working websites — from clean backend architecture to a smooth, modern frontend. I build complete, database-driven products: **REST APIs, dashboards and production-ready interfaces**. I care about code that's easy to maintain, not just code that works today, and I keep improving how I build things.

SKILLS

Laravel	●●●●●	HTML5	●●●●●
PHP	●●●●●	CSS	●●●●●
MySQL	●●●●●	Tailwind CSS	●●●●●
REST APIs	●●●●●	Bootstrap	●●●●●
Command Line	●●●●●	Git & GitHub	●●●●●
JavaScript	●●●●●	Cursor	●●●●●
Vue.js	●●●●○	Claude	●●●●●

EXPERIENCE

Junior Web Developer → Sublime Logics

6 MONTHS

- Worked on real-world web development tasks, contributing to live projects and shipping features as part of the development team.
- Integrated third-party services into production websites — live chatbot, Google reCAPTCHA, CRM-driven contact/job/student forms, Microsoft Clarity and Google Tag Manager.

Web Development Intern → Sublime Logics

3 MONTHS

- Completed a three-month internship with hands-on experience in web development and professional coding practices.
- Contributed to development tasks on real projects.

Self-Taught Web Developer → Independent Learning

SELF-LEARNING

- Learned HTML, CSS, JavaScript and Laravel through self-study and hands-on practice, building a strong foundation in web development.

SELECTED PROJECTS

Employee Performance Review System

LARAVEL · FILAMENT V3

- Built a full performance-review module inside a Laravel accounting app — automated monthly reviews, employee self-review portal, weighted KPI scoring, reports, and Discord + email notifications with role-based access control.

Sublime Logics — Company Website → contributions

VUE.JS · NUXT

- Contributed chatbot and reCAPTCHA integrations, CRM-connected registration forms and analytics setup to the production company website — www.sublimelogics.com

Sweet Creamery — Landing Page

HTML · CSS · JS

- Responsive ice-cream shop landing page, deployed on Netlify — hamza-sweetcreamery.netlify.app

Personal Portfolio Website

VUE 3 · VITE

- Animated, responsive portfolio with routed project detail pages — hamza-ali-dev.netlify.app

EDUCATION

FA (Information Technology) — Ambala Muslim College, Sargodha · 2025
